VICTORIA INDUSTRIES.

The Manufacturers of Brick—A Visit to the Several Yards.

The Modus Operandi—Large Output—A Profitable Industry.

Amidst the picturesque scenery of the Saanich road are to be found the unsightly factory yards of that very useful and ancient article, the brick. It is to brick and their arrow-headed inscriptions that the learned world owes a great deal of its information regarding the ancient Egyptians and Babylonians. Does not the brick found on the site of Ninevah and Babylon preserve the incidental history of that ancient people, which would have perished along with all their other traces were it not for the brick inscriptions? And thus a lump of soft clay, one of man's first crude attempts at manufacture, preserves the history of a people almost lost. The manufacture of brick is but little altered from the early mode as described in the sacred scriptures, "and they made brick and waxed strong," &c. The potter's art, also, in its crude state, was nearly the same as that of the Staffordshire potteries of the present day. The potter's wheel has undergone very little change, and here in Victoria have we not before our eyes a very instructive lesson in our brick fields, in the carrying on of an ancient art by an ancient people? The first brick fields are those extensive ones on the left hand side as you pass up the road from the city, of

COUGHLAN & MASON.

These fields have been in operation some six years and in that period must have turned out the enormous quantity of some thirty million bricks! Here we see the whole process going on at once. The clay, tempered by the frosts of winter and other chemical, weather and atmospheric changes, is ground up by mills, worked by an eight horse-power engine, which is the only mechanical power employed. After being ground in a damp condition it is received and deftly moulded by the ever busy "John," then carried away by other "Johns," and spread on the ground. A few days suffices to harden the u sufficiently for the turning on side, a few more and they are "wheeled" to the kiln, built in large stocks from the raw bricks. Here comes in one of the great secrets after tempering the clay of modern brick-making as carried on here. In the construction of the kiln lies the secret of economy in fuel, but also that of an equal distribution of the heat in order to thoroughly bake the brick, which preserves the form intact and free from flaws or cracks. After "baking" in the kiln till the whole mass of several hundred thousand are thoroughly "cooked," they are then ready for the hands of the builders. The bricks manufactured in the Victoria yards are what are called slop or hand made. Modern science has introduced machines for pressing the damp clay into moulds, cutting them to size, and turning them out in a continuous stream into the hands of the carriers. A brick press was imported by the Humber yard a few years ago; it did not work well, and was discarded. The article turned out will in quality fairly compare with brick of other localities. The quality of brick chiefly depends on the clay, therefore the Victoria clay, being of a certain class, can only turn out a certain quality of article. The water necessary for the mixture of the brick in the Coughlan yard is obtained from the city water works. The number daily manufactured and is some 24,000, from the hands of three moulders. The annual output was last year some three millions. That of the present will not exceed it. Busines is very brisk at present and likely to so continue till fall. There are some four white men employed as foremen, etc., and twenty-two Chinese as "moulders," "carriers" and "wheelers." White labor is paid from $2 to $3 per day, Chinese moulders $2 50, spreader or carrier $10 per week and wheeler $1 50 per day.

A little up the road on the opposite side we come to the well known yards of

MAURICE HUMBER,

established for over ten years, and the article from these yards have a well-known reputation peculiarly their own. The mode of manufacture is almost precisely the same as above described. The brick is "slop." The engine, a 20 h. p., is also used for drawing up the water, which in this yard is obtained from an artificial dam, where the rains of winter are gathered, by one of the most ancient of steam applications, viz., that of pulsation, or the cresting of a vacuum by which the water is forced up. Last year these yards turned out some 4½ millions and had six mills going; this season there is only three. The cause of last year's demand was the large export to Vancouver. This season's output will come up to 3½ millions. The demand is brisk and likely to increase till the end of the building season. There are four whites and about 20 Chinese constantly employed. The rate of wages is the same as the other yard. We found our guide, Mr. James Stuart, the fireman of the yards, a brick in more ways than one, thoroughly conversant with the business, intelligent and very courteous. He informed us that an attempt was made by Mr. Humber, his uncle, to make a coarse kind of pottery, such as flower pots, etc. The goods were sound and substantial, and sold cheap, but did not receive that patronage to which they were entitled—another instance of Victoria prejudice. The kiln and workshop were burned down and the proprietor did not think it worth while to re-build it.

ELFORD & SMITH'S

yards are more over towards the shores of Rock Bay. These yards are small compared with the foregoing ones. The mode of manufacture is similar. There are about eighteen Chinese employed and horse power is used for grinding purposes. The water is supplied from a dam constructed across a small creek. The output of the present season will come up to about two million. The demand is brisk and increasing.

The brick making industry of Victoria may be said to be only in its infancy yet, and with Chinese labor at from $1.50 to $2.00 a day, wood for fuel at $3.50 a cord, and brick at $8 per M, ought to be a very profitable undertaking. With the introduction of modern brick-making machinery the business would be still more profitable. In the making of brick is to be found one of the most promising industries for the investment of capital.

Coarse pottery, flower pots, milk pans, &c., besides drain pipes, tiles, &c., could or ought to be added to the business and should be also a very profitable undertaking. In bricks lies a new field for capital and enterprise.

CONGRATULATORY.

Address Presented to His Lordship Bishop Lemmens.

Members of Young Men's Institute No. 85 met last evening for the purpose of presenting an address to their head pastor, Bishop Lemmens. At 8:30 o'clock the Committee proceeded to the Bishop's Palace on Yates street and were introduced to His Lordship by Rev. Father Van Nevel. Amongst those present were Fathers Verbeke, Laterne and Hennen, Messrs. Alex. McDonald, F. H. Lang, Prof. Agius, G. Tribe, A. E. Macdonald, W. B. Smith, Geo. Madigan, F. Roarke and T. Hodges. The following address was read and presented to Bishop Lemmens by the President of the Institute:

To His Lordship, the Right Reverend John Nicholas Lemmens, Bishop of the Diocese of Vancouver Island and Alaska: May it please Your Lordship:

We, the undersigned, on behalf of the members of Young Men's Institute, No. 85, gladly take advantage of the occasion of Your Lordship's elevation to the high and holy office of Bishop of the Diocese to extend to you our congratulations with submissive deference and feelings of profound respect.

Already have your pious zeal in the discharge of your priestly duties and the earnest devotion which characterized your missionary labors in the sacred cause of religion and humanity, convinced us that in Your Lordship the Church will have a champion who will wisely, firmly and unflinchingly guard the interests of the Holy Roman Catholic Church, and it is with the deepest gratitude that we acknowledge the kindness and support shown by Your Lordship in everything pertaining to the advancement of our holy religion.

When we consider the loss which the church sustained in the sad death of your illustrious predecessor, who met with an untimely end while engaged in carrying the "Story of the Cross" to the pagan Indians of the wilds of Alaska, and more recently in the removal of our much beloved pastor, the late Administrator of the Diocese, it is a source of the greatest comfort to us to be able to feel assured that, in their successor, we can lovingly reverence a prelate who combines in himself all the qualities essential to the wise and faithful performance of the onerous duties which our Holy Mother the Church has called upon Your Lordship to assume; and we earnestly pray to Almighty God that Your Lordship's rule may be extended *ad multos annos* and that you may see your charge advance in power to His greater glory.

We observe with the utmost gratification the large number of prelates and clergy who participated in the imposing ceremonies on the occasion of Your Lordship's consecration and also the feelings of joy and happiness that prevailed throughout the whole congregation on that eventful day in the history of the Catholic Church in this Diocese.

We remain,

Your Lordship's Obed't Serv'ts,
ALEX. MCDONALD,
GEO. MADIGAN,
T. ROARKE,
WM. B. SMITH,
A. AGIUS,
GEO. TRIBE, } Committee.

F. H. LANG, Secretary.
THOS. DRAKE, President.

His Lordship made a most appropriate reply thanking the Institute for their expressions of loyalty and devotion. In the course of his remarks Bishop Lemmens wished the Young Men's Institute every success. A short time was afterwards spent in conversation and the committee retired after receiving the Bishop's blessing.

Church Notes.

Services will be held in the Baptist Church, Herald street, to-morrow (Sunday) morning and evening. Rev. M. L. Rugg will deliver the sermon at the morning service. During the evening service Rev. Mr. Beaven, of Walla Walla, will preach.

His Lordship Bishop Lemmens will preach to-morrow morning at the R. C. pro-Cathedral. Father Bouchard, S. J., will open a mission after benediction.

Rev. Donald Fraser, M. A., will conduct divine service at the First Presbyterian Church, Pandora street.

Reformed Episcopal Church—Services on Sunday morning at 11 o'clock; evening at 7 o'clock, conducted by the Right Rev. Bishop Cridge and Rev. Dr. Reid. Weekly service on Friday at 7 o'clock.

More than ordinary interest is being taken in a series of sermons which the Rev. Mr. Wadman, the pastor of the Gorge Road Church, is at present delivering on Sabbath evenings. A week or so ago the TIMES referred to the practical form which this series of discourses has assumed, and stated its conviction that it was just such a sermon that the present age demanded. This has been more than realized by the large congregations which have flocked to the above mentioned church on Sabbath evenings. To-morrow evening, the subject is a unique one and no doubt the preacher will treat it in a practical form.

In St. John's church services will be conducted by the Rev. Percival Jones.

Gorge Road Methodist Church, Rev. Mr. Wadman, morning and evening.

Christ Church Cathedral, Rev. A. Beanland, morning and evening.

St. James Church, James Bay, Ven. Archdeacon Scriven.

In the Pandora Avenue Methodist Church Rev. Mr. Starr will preach morning and evening. Subject in the evening, "The Lost Grace."

The Chinese Steamer.

The C. P. R. steamer Aberdeen passed up at 9 a. m. to-day from San Francisco for Yokohama *via* Vancouver. She had on board 900 tons of freight, principally flour and general merchandise, and five passengers. She will call at Nanaimo for coal, and will arrive at Vancouver Sunday night. After taking on board five or six hundred tons more cargo, which is now waiting, and a full complement of passengers, she will sail on Tuesday morning.

Accident at Chemainus.

Mr. W. B. Morris, a settler of Chemainus, while engaged in clearing his land yesterday, cut his right foot severely with an axe. A Chinaman brought the news to Chemainus, and Mr. Pafford went out and carried the injured man to the landing. He was taken to Nanaimo.

Smoke Sultana Cigarettes.

Children Cry for Pitcher's Castoria.

NEWS OF THE WORLD.

Conspiracy to Defeat the New Railway Project in Manitoba—Brutal Prize Fight.

C. P. R. Scheme—The Pacific Mail Contract—Four Year Old Murderer, etc.

A RAILWAY CONSPIRACY.

Winnipeg, Aug. 11.—A conspiracy to defeat the Government has been unearthed. It has been learned with absolute definiteness that letters have been sent to country members, elected to support the Government, asking them to join a conspiracy and overthrow the ministry. Inquiry has revealed that the Hudson Bay railway company's pushers are at the bottom of it. They have been openly declaring for some time if the $4,000,000 guaranteed for the road was put in force things will be all right, but if not matters would be otherwise. The names of several members of the house are mentioned as being in the conspiracy. Greenway says he will take the bull by the horns and the Northern Pacific contract, against which there is some feeling through the Legislature.

FATAL FIRE IN ONTARIO.

Grafton, Ont., Aug. 11.—This morning a house occupied by a French family named Toussing, consisting of the father, mother and eight children, was burned. Two children, aged four and six were burned to death, another aged eight cannot recover.

CONTRACT AGREED TO.

Montreal, Aug. 11.—A cablegram from London says: The terms of the contract for the conveyance of mails between Canada and and Hongkong have formally been agreed upon by the Government and the Canadian Pacific railway. Goschen confirms the report, but says the contract cannot be signed early enough to lay it on the table before the autumn session of parliament.

Halifax, Aug. 9.—Senator Macdonald, of Toronto, is here on his return from Labrador. He describes the extreme destitution of the fishermen of that coast and says that some of them have not caught more than half the usual quantities of fish and others have been living on mussels, etc. Clothing and food are both scarce and semi-starvation prevails in some quarters. One man is reported to have cut the sails of his boat and made clothing. Women and children have scarcely enough clothing to meet the demands of decency, while others are on the verge of starvation.

CONSERVATIVE ELECTED.

London, Aug. 10.—The election in the West Derby division of Liverpool to-day to fill the vacancy caused by the resignation of Lord Hamilton, Conservative, resulted in the return of Mr. Wm. Henry Cross, oldest son of Lord Cross, who is also a Conservative.

HUMBERT WILL VISIT BERLIN.

Rome Aug. 10.—The *Diritto* says King Humbert will visit Berlin before the German Emperor comes to Rome.

NOT SO SANGUINE OF PEACE.

Vienna, Aug. 10—Newspapers of this city, commenting on Lord Salisbury's recent speech, say they do not share his confidence as to peace. They consider his reference to Russia and Bulgaria subtle irony. The *Tremendenblatt* says the Austrian policy has always been a peaceful one. It does not doubt the loyalty of the Czar, and expressed the hope he will be able to imbue his people with his peace policy.

PARIS EXCITED.

London, Aug. 11—Paris is excited this morning over an article in *La France* concerning the occupance of Massowah in Egypt by Italy. The paper reviews the situation and publishes a map purporting to reveal the plan concocted between Bismarck, on behalf of Germany, and Signor Crispi, for Italy, to dismember France. The article states that Germany is to take the departments, while Italy is to be given several islands, including Corsica, Belgium to take 3 and Spain 2.

EXTREME UNCONCERN.

London, Aug. 11.—Parliament will adjourn on Monday next until November 7th.

The *Daily News*, in commenting on Blaine's response to the welcoming speech yesterday, says Blaine's statement that the English people are watching the campaign with interest is erroneous. They regard it with extreme unconcern.

PARIS ANARCHISTS.

Paris, Aug. 11—A revolutionary proclamation has been seized at the house of Skudey, an Anarchist leader, who was arrested during the riots on the occasion of the funeral of General Endes. It is rumored that the Anarchists had secreted 1000 revolvers in the Labor Exchange, and the government only prevented a rising by the seizure of the Exchange.

UNITED STATES NEWS.

SHERIDAN'S FUNERAL.

Washington, Aug. 11—As early as 9 o'clock carriages containing friends, acquaintances and strangers, began to arrive at St. Mathew's Church, to pay the last tribute of respect to Gen. Sheridan, and by ten, when the funeral services began, the church was crowded. Among the prominent persons present, were the President, Mrs. Cleveland, Mrs. Folsom, Secretary Villas, Postmaster Dickinson, Mrs. Sheridan, Colonel Sheridan, General and Mrs. Rucker, parents of Mrs. Sheridan, and representatives of the various foreign embassies, about 200 army officers, judiciary and representatives in the Legislature. At 9:50 Rev. Father Mackin, celebrant, Fathers Keswick and Ryan, as deacons, preceded by altar boys and acolytes, forming a procession, emerged from the sacristy and began the *requiem* mass for the dead. At the conclusion of mass Cardinal Gibbons preached from the text: "How is the valiant man fallen that delivered Israel." The Cardinal's allusions to the personal life of Sheridan brought tears into the eyes of many weather-beaten veterans. The Cardinal then pronounced absolution, sprinkled holy water on the coffin, the singers chanted the benediction, and the services Catholic over the body ended. The casket was then placed on the shoulders of eight sergeants of Troop B and conveyed to a caisson at the door of the church; then followed the pall bearers and Mrs. Cleveland, Mrs. Folsom and members of the cabinet. Drawn in line in front of the church was a military procession. The whole procession, under the command of Col. Gibbons, then moved to Arlington Cemetery, a distance of nearly five miles. Great crowds lined the route and the slopes of Arlington were black with thousands of people.

A FOUR-YEAR-OLD MURDERER.

Augusta, Ga., Aug. 11.—A little four-year-old negro boy yesterday in Banlie county killed his little brother by knocking him on the head with a piece of wood.

ARIZONA INDIANS.

Prescott, Ariz., Aug. 11—A courier reached here to-day, from Pleasant Valley in the south-western part of this county, 150 miles distant from here, stating that two hundred Indians from San Carlos reservation were in that vicinity and threatening settlers. Two men are reported killed and one is missing and is supposed to be killed, but whether by Indians or white men could not be learned. Pleasant Valley is situated in Tonto Basin and was the battle ground last year of the Graham and Tewnsbury factions, in which some thirteen or fourteen persons were killed. Troops left for the Basin and are due there shortly. Private letters have also been received here confirming the report of the killing of the white men, but they too are uncertain as to whether the deed was committed by Indians or white men. No serious trouble is apprehended, as a large number of cowboys in that vicinity are heavily armed with Winchester rifles.

STEAMER BURNED.

New York, Aug. 11—The steamboat Bay Ridge, an excursion boat running between here and Sand Point, L. I., was burned to the water's edge this morning while lying at the dock at Glenwood. Peter Langman, barkeeper, was burned to death. Loss, $60,000.

BLAINE REMAINS QUIET.

New York, Aug. 11—Blaine and family remained quietly at the hotel all morning. There were a few callers. Blaine desires to remain quietly till Monday when he will leave for Boston.

A PRIZE FIGHT.

Washington, Aug. 11.—A desperate and bloody prize fight of 23 rounds was fought in the vicinity of Washington early this morning, between Pete Laley, champion middleweight of Maryland, and Wm. McMillon, of Birmingham, England. The fight was awarded to McMillon on a foul.

THE LAST C. P. R. SCHEME.

New York, Aug. 11.—The Canadian Pacific is about to begin the construction of a new extension from London, Ont., to Detroit. The company has purchased an extensive dock property and terminals at Windsor, opposite Detroit, between the Grand Trunk and Michigan Central roads. Arrangements are also perfected to parallel the Grand Trunk between Hamilton and Toronto.

RAVAGES OF TOREDOS.

Tacoma, Aug. 10—At Wilson's wheat warehouse on the water front the piling gave way this afternoon, dumping from four to five thousand sacks of wheat in the Sound. More is expected to go. The loss up to this time is over $9,000. The piling was eaten by toredos.

UNDER THE WHEELS.

San Francisco, Aug. 11—James A. Wilson, police sergeant, aged 41 years, while attempting to board a cable car last night, slipped and fell under the wheels. He died this morning.

QUARANTINE AGAINST FLORIDA.

New Orleans, Aug. 11—The Board of Health has declared at quarantine against the infected parts in Florida.

Atlanta, Aug. 11—Refugees from yellow-fever stricken Jacksonville are still pouring in. Atlanta is considered exempt from danger.

MURDER AND SUICIDE.

Santa Cruz, Aug. 11—This morning Seach Fields killed his wife and then shot himself at Scott Valley. Mrs. Fields was formerly school teacher.

JEROME DYING.

Sharon, Conn.—A bulletin has just been issued by Dr. C. H. Sears and reads: "There was a decided change for the worse in the condition of Lawrence Jerome last night. She is now unconscious and probably will survive but a short time."

TOWN OF WINTERS BURNED.

Elmira, Aug. 11.—A rumor has reached here that the town of Winters, in Yolo county, was burned last night. No particulars.

THE FORESTERS' PICNIC

An Undoubted Success—A Large Number Visit Nanaimo.

About three hundred persons left on the Foresters' excursion to Nanaimo this morning the Foresters assembled in their hall and marched to the depot about 8:10 a. m. with banners flying and headed by the Court Northern Light band under the leadership of Mr. W. Mearn. About ten members were in the parade who were decorated with the emblems of the order and presented a good appearance.

Nanaimo, Aug. 11—The black diamond city is *en fete*. The day seems to be a general holiday. On the arrival of the train from Victoria a procession of Foresters with banners and headed by a brass band met the brethern from Victoria at the depot of the E. & N. railway and marched through the city to the picnic grounds where the sports commenced. The affair is undoubtedly a success.

Visiting Grand Master.

The brethren of the mystic tie met Mr. Richard T. Walkem, Q. C. of Kingston, Grand Master A. F. & A. M., of Canada, in their lodge room this afternoon and presented him with an address. An appropriate reply was made. Mr. Walkem leaves for home to-night.

A Meteoric Stone.

A story comes from Comox, says the *Free Press*, to the effect that during a recent thunder storm, a meteoric stone struck a stump on the line of the Union Colliery railway, shattering it almost to pieces. A burnt piece of the stump can be seen at the Lorne Hotel, while the urbane host, Cliffe, stands responsible for the meteor, the stump and the story.

Marriage.

An interesting event took place at 8:30 o'clock last evening at the First Presbyterian Church, Pandora street. Mr. William Bryce of this city was married to Miss Sophia Heaney, Rev. Donald Fraser officiating. A large number of friends of the happy couple were present at the church. Robert Bryce, brother of the groom, was best man, whilst Miss Ruth Ross was bridesmaid. The bride looked charming and was dressed in white with orange blossoms. Mr. Bryce is a member of the hook and ladder company and their flag was raised to-day. THE TIMES extends congratulations to Mr. and Mrs. Bryce.

IT WILL BE BUILT.

Particulars in respect to the organization of a company to construct a railway from Victoria to Shoal Harbor, thence by a steam ferry with the mainland, and a railway from that point to the Canadian Pacific and Northern Pacific systems at Westminster and on the Sound, are published in another column in this issue. The project is not a new one, a charter for a somewhat similar line having been secured from the British Columbia Legislature a few years ago. The necessity for quicker transportation facilities between Victoria and the railway centers to the east and south has long been apparent to our enterprising business men. Our insular position, it was thought by a few, would always prove an effective barrier to continuous railway communication, but on careful examination the supposed obstacles were ascertained to be purely imaginary. But nothing could be done until railway construction on the mainland and in Washington Territory had advanced to a stage which rendered connection therewith not only feasible but profitable. The Canadian Pacific, completed to Vancouver and New Westminster a year or two ago, and the Northern Pacific and subsidiary lines on the Sound now being easily accessible, the opportunity for making Victoria the real, as she is now the practical, terminus of the great transcontinental roads, has arrived. The company, which, it will be observed, embraces many of our leading citizens, will at once apply to the Dominion and Local Governments for incorporation. It is proposed to construct a railway from this city to Shoal Harbor, on the Saanich peninsula, where a powerful steam ferry will convey the cars to a point near the mouth of the Fraser river. A short branch to Westminster and another to the boundary line near Boundary Bay, will complete the link that will bind Victoria with an iron band to the innumerable railway systems of the continent. The promoters have embarked in the enterprise with an enthusiasm and a determination to accomplish the object they have in view that is a certain guarantee of success. All that is required is united action on the part of our citizens and the thing is done. The capital, if need be, can be found in Victoria, which already provides money for most of the business enterprises of the province. There is no great physical obstacle to overcome, and in two years at most the railway can be in successful operation. Victoria, Saanich, the Delta Municipalities, Vancouver and Westminster will all be benefitted by the road, and will assist the enterprise by every means in their power. In this city, which no doubt would be benefitted to an enormous extent by the accomplishment of the scheme we have briefly outlined, there will be but one opinion—the road will be built—and to that end everything that can be done to facilitate the movement will be done. With this connection established across the Straits of Georgia, and the railway-ferry to Crescent Bay, the objective terminus of the Southern Pacific, Victoria will continue to hold the commercial key of the North Pacific, which a few ambitious rivals are vain enough to imagine can be wrested from her in the not distant future.

TEMPORARY CERTIFICATES.

The day of the teacher's temporary certificate is doomed. That is, it will not continue to exist as it has done, a special dispensation granted by the Provincial Secretary to his friends and relatives. This "royal road to learning" and qualification as a school teacher is likely to be blocked to the aforesaid friends and relatives by the lion of public opinion. People simply will not stand it. From all quarters the TIMES is receiving assurances that its strictures upon the educational department were deserved, and it is asked to continue the exposure with a view to securing a greater purification of our school system. Several instances in which "temporarys" have been granted contrary, as we claim, to the law, have come under our notice. We are informed also that two years ago circulars signed by the Superintendent of Education, were mailed to all the teachers in the province informing them that no more temporary certificates would be granted and instructing them to govern themselves accordingly. Why was the rule broken? The minister of education should have shown the teachers his appreciation of the truth by stating it himself. This trifling manner of dealing with serious matters ill becomes the head of the most important branch of the public service. Moreover it was working an injustice. In addition to all this the public will perhaps not be surprised when it is informed of a report to the effect that this same government which has been granting temporary certificates year after year has actually refused to renew first-class certificates granted by the board of this province. There is much wrong with the law; there is more wrong with those entrusted with the administering of it.

MR. GOLDWIN SMITH.

The citizens of Victoria cannot but feel proud to have a visit from the great scholar and distinguished statesman whom we welcome in the person of MR. GOLDWIN SMITH. Statesman in the truest sense of the word he is, for, though he has never entered parliament, he has had more influence in the legislation of England and of Canada than any save the foremost member of our national councils. His appearance in the field of politics in England was not a little strange. From his cloister in Oxford, he wrote a series of letters to a northern newspaper which showed him to be a thinker as well as a scholar. In incisiveness, in purity and in polish he had few equals in living or past writers. But if his style charmed, his matter delighted the radical party more. JOHN STUART MILL was timid and JOHN BRIGHT temperate compared with this "wild man of the woods," as Disraeli called him. In Manchester, in the cradle and temple of free trade, he lectured the leaders of the movement, he and he alone of living Englishmen comprehending fully the theory of ADAM SMITH. Church establishments he abhorred, and, whether he hated the aristocrat or the plutocrat most one could hardly say. Almost single-handed he carried on the prosecution of Gov. EYRE, which, unsuccessful in obtaining a verdict, did much more. It drew from Lord COCKBURN the famous charge to the grand jury, which has taught those dealing with subject races that they are to be respected and their lives are not to be taken without cause, though they may happen to be politically opposed to those in power. Regret was naturally felt when this brilliant writer left England for the States, and joy was expressed when he returned to the old flag, by taking up his abode in Canada. Now, thought his old friends in the liberal party in England, "we shall be represented in the councils of Canada; the principles of ADAM SMITH must prevail; the high priest of political economy is in Canada and his presence alone is a guarantee that the cause will be fairly presented to the people of Canada." They were doomed to disappointment and great was their chagrin when they found the first important step in Canadian politics taken by Mr. SMITH was a recommendation to adopt the policy of protection. Then the idea was, by means of protection, to prevent importations from the States. The idea now is by that same tariff to negotiate for free exchange with the States and to prevent the same exchange with England. If it is not so Mr. SMITH can say what he means and no man can express his meaning more clearly.

On minor points Mr. SMITH was not in sympathy with the National Policy of Canada, and never was he more witty, never did he convulse his Lancashire audiences with laughter so much, as when he held up Sir JOHN MACDONALD to ridicule for attempting to build a line of railway from the Atlantic, by an unsurveyed route, to reach some forty thousand half-breeds on the Pacific. A fine irony of fate has brought him over this unsurveyed railway to see us here. We trust that like the Prince of WALES he will find we are not all blacks in British Columbia.

P. O. SAVINGS BANKS.

The annual statement of the business of the Post Office Savings Bank is a pretty reliable index to the prosperity of the working classes of the country. The return for the year ending 30th of June, 1888, gives the following results: Total amount of deposits received during that period was $7,722,330; average amount of each deposit, $49.51; amount of depositors' accounts transferred from Dominion Government Savings bank, $217,385.10; number of withdrawals, 78,229; total amount withdrawn during period, $7,514,071.78; average amount of each withdrawal, $96.05; number of accounts opened during period, 37,515; number of depositors' accounts transferred from Dominion Government Savings Bank, 723; number of accounts closed during period, 26,704; number of accounts remaining open at close of period, 101,693; total expenses of management, $44,348.93; average cost of each deposit or withdrawal, $0.19; percentage of cost of management to balance due to depositors $0.21; interest allowed to depositors, $765,639.15; total amount standing to the credit of all open accounts inclusive of interest allowed at close of period, $20,689,032.62; average amount standing to credit of each open account at close of period, $203.44. Cost of maintaining the Post Office Savings Bank, including interest allowed to depositors and all expenses of management averages about 4 1-10 per cent. on the average savings bank balance in the hands of the Government. The amount now on deposit is the largest for any one year since the establishment of the bank, the number of depositors being in excess of any of the years since 1868. The number of withdrawals and the amount withdrawn during the year was in excess of those of any previous year, while the number of depositors was the largest on record. The amount deposited was below that of either of the two preceding years. The expenses of management were larger for the year than for any preceding one, but the percentage to balance due depositors was the smallest in twenty-one years or since the organization of the bank. The average amount standing to credit of each open account at the close of the year was only exceeded by a few dollars in 1887, 1886 and 1885, and is higher than that of any other year.

WESTMINSTER SOUTHERN.

The promoters of the Westminster Southern Railway, who were in the city yesterday, in conversation with a representative of THE TIMES said they did not wish their company to be understood as antagonistic to the C. P. R. They were undertaking an enterprise in the interest of New Westminster city, and unless the policy of the C. P. R. was antagonistic to it there was no cause for anything but friendship between them. They thought it was very unfortunate that it should be made to appear otherwise. The Columbian had shown late a great deal of hostility to the Canadian Pacific, which they did not approve of.

EDITORIAL NOTES.

It is said that the reason of Mr Stephen's determination to give up the presidency of the C. P. R. company is that the affairs of the company have so shaped themselves as to make it imperative that a practical railway man should take charge of the property. Stephen is not a railway man in the sense in which the term is usually employed, though as a diplomat and as a financier his administration has been successful. Vice-President Van Horne, besides being a financier, is familiar with every department of railway management, and is so fitted to take control of the C. P. R. system which has recently grown to enormous proportions.

Last evening's issue of the new government organ, the Standard, contained the first instalment of pap, which was the consideration agreed upon for the conversion of the paper from its former attitude of hostility. The proprietors, ashamed of their action, placed the advertisement in an obscure corner on the third page, hoping, no doubt, that it would not be observed. They desire to go over gradually and without calling public attention the change, which they know is condemned by friend and opponent alike. The shilling has been paid, the contract is now ratified and henceforth the Standard is the mouth-piece and apologist of a combination of politicians which hitherto it has always opposed.

OLD STORY REVIVED.

Mr. Pyke of Operatic Fame Blessed With Two Wives.

Some time ago, the Winnipeg *Call* announced that Mr. C. M. Pyke, an operatic manager, who has a large number of friends in Winnipeg, had married the well-known prima donna Louise Manfred, who was in his company when it played here last season. Seeing the announcement, Mr. W. K. Reynolds, of Halifax, N. S., writes the *Call* as follows:

Halifax, N. S., Aug. 1.

EDITOR OF THE CALL,—In your paper of 5th ulto., the following item appears: "Louise Manfred, the charming little prima-donna, who was here with the Pyke opera company, has married Mr. C. M. Pyke." My reason for troubling you in this matter is, that Mr. Pyke upwards of twenty years ago married my eldest daughter. At that time he was in business in this city as an auctioneer. He became unfortunate and not able to support his wife. He asked me to go for her and take her home with me until he was in a position that would enable him to allow her to travel with him, this I did and for a time she remained with me. He afterwards made arrangements for her to reside with his father's family at Kentville, in this province. He returned to this province about eight years ago for a short time, when he returned to the States to follow his profession, and I believe Miss Manfred has been connected with his company ever since. We have had various rumors similar to the item referred to, and to other relations existing between him and Miss M., which we have reason to believe, as for nearly four years he has not contributed one cent towards his wife's support. What I want is sufficient evidence to enable my daughter to obtain a divorce, which in our courts is only granted for one cause, adultery.

The item Mr. Reynolds refers to was entirely correct. Mr. Pike himself gave the information and the announcement of his marriage has been published in most of the dramatic papers.

EGGS AND STONES.

An Industry That is Being Pursued in Labrador With Profit.

Quebec, Aug. 6—Judge Dugas, of Montreal, has arrived here in company with Count Payjalon, a Frenchnobleman, and Mr. Werneu, a French capitalist. The party have enjoyed good sport during a month's stay on the coast of Labrabor. They report that a very extensive trade is being done there by Americans who export the eggs of the eider, seagulls and other birds and valuable stones of various kinds. Mr. Werneu istends purchasing a large section of the coast containing valuable lithographic and paving stones and mica, and off which are said to be situated some of the most productive cod and mackerel fisheries. The Government intends to exercise a stricter surveillance over the manner in which American speculators export the produce of this coast. It is thought that millions of the eggs of various fowl are taken every year at Labrador.

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them, with good effect, in cases of Rheumatism and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Esling, Richmond, Va. ff

Ayer's Pills,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Dealers in Medicine.

Skepticism

By reason of the state of chronic incredulity in which many men pass their lives they miss half the good of this world. They seem to think that doubt and unbelief are proofs of wisdom, and through fear of being deceived reject much that is true and good. To such minds the statement that Dr. Pierce's Golden Medical Discovery is a real and proven cure for all diseases caused by torpid liver, bad blood or scrofulous humors carries with it its own condemnation. They do not believe it, apparently, because we say so; and yet what more, or less, than this can we do? We know the facts, and if we did not make public the great value of this remedy few would profit by it. We try to do our duty in the matter and it remains for the doubter who needs help to overcome his prejudice and give it a trial.

CANADIAN NEWS.

Latest Happenings in the Eastern Provinces.

A young man named Gagnon, of Hull had a dispute with a city hackman about paying fare when the latter attacked Gagnon in a brutal manner. It is expected his injuries will prove fatal.

Supplementary crop reports from all parts of the province of Ontario show that all the crops, with the exception of spring and fall wheat and hay, will be above the average in yield and quality. Previous reports stated that the outlook was bad, owing to the general drought which prevailed, but since the rain has fallen everywhere, and instead of scarcity there is likely to be an abundance of everything.

In a few months the Grand Lake coal fields of New Brunswick will be opened up to traffic by the Central railway. The coal in this region lies near the surface and it is claimed it will be mined and sent to market at a great profit. Notice is given of the formation of the Grand Lake Coal Company. The principal stockholders are New York and Philadelphia capitalists.

Mr. and Mrs. Laurier will arrive in Toronto Saturday night. On Monday Laurier will speak at the Young Liberals' picnic at Oakville, after which with Mrs. Laurier he will go north with Mr. and Mrs. Edgar. It is expected Laurier will speak at Guelph August 23d.

At the Grand Lodge of the Independent Order of Odd Fellows, in session at Barrie, a membership of nearly 16,000 is reported with 215 lodges.

A Kingston dispatch says hundreds of head of cattle are being sent from this drought-stricken country to the States. Farmers rather than see the animals suffer and starve, are selling them from six to twelve dollars per head.

Premier Mowat cables that the Privy Council will give judgment in November on the boundary dispute case.

The British fleet leave Halifax at the end of the month for a trip up the Gulf to Quebec, going up to Montreal, where they will stay a week.

Considerable opposition is springing up in Winnipeg to the ratification of the Northern Pacific railroad contract, which is supposed to be promoted by the Hudson's Bay railroad influences. The Free Press has a significant article throwing cold water upon it.

Supplementary crop reports received from all parts of Ontario show that all crops with the exception of spring and fall wheat and hay will be above the average in yield and quality.

SOUTH AFRICA.

Is the Position Such as to Occasion Alarm.

London, Aug. 6—There is no doubt since the recent death of Sir John Brand, president of the Orange Free State, the position of England in South Africa has become more perplexing than ever. President Kruger, of Transvaal, and other members of the anti English "ring" are making strenuous efforts to have one of their political creed chosen as Sir John's successor. The principal difficulty, both social and political, in the affairs of the various South African communities for the last half century has been the want of accord between the settlers of the English and Dutch races. In these difficulties and disputes President Brand, who was born at Cape Town, though his parents were English, was for more than twenty years moderator and mediator. News from Zululand indicates that strong influence is at work to induce the Zulus and Boers to make common cause against England, and the fact that the British cabinet views the situation with no little anxiety is shown in the circumstance of two steamers having left Woolwich during the last week laden with material for South Africa, while during the week previous similar shipments and of like magnitude were consigned to the same destination. The reason given at the war office for these consignments is that war stores at the Cape had been allowed to fall far below the usual supply, but it is known that contingents of troops have been dispatched from the other colonial stations to reinforce the troops at Natal, and it is surmised that after parliament has adjourned so that the government cannot be plied with embarrassing questions by opposition members, more reinforcements will be sent from England.

A CANADIAN MILLIONAIRE.

How the Purchaser of a Montreal Mansion Made His Fortune.

The story of Mr. Olivier Daunais, who lately purchased the Hon. Mr. Thibaudeau's residence at Longue Point, Montreal, is a most interesting one. When quite a young man he left his little place, Sorel, and went out west with a view to make a fortune. After several adventures he fell in with a tribe of Indians at the foot of the Rockies, and noticed that they used silver nuggets for loading their guns. They refused at first to let him know where the ore came from, but through perseverance and by marrying a girl of the tribe, he became possessed of the secret and afterwards got a patent to explore these rich mines which are now known under the name of the "Beaver Mines." Later on Mr. Daunais settled at Port Arthur, where he now owns valuable real estate. By a second marriage Mr. Daunais has a family of seven children who, with their mother, will go to Montreal in October next. Mr. Daunais' fortune is said to be worth $2,000,000.

An Explanation

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous. *

MUNICIPAL.

A BY-LAW

To Provide for the Acquisition and Maintenance of a Public Library.

WHEREAS, THE SUBSCRIBERS OF THE Mechanics' Literary Institute heretofore established and maintained at Victoria, have resolved to hand over the Library of that institute to the City Council as a free, or partially free, circulating library.

And, whereas, it is expedient to accept the offer contained in the said resolution, and establish and maintain a public and free, or partially free, library, therefore

Be it enacted by the Council of the Corporation of the City of Victoria as follows:

1. This By-Law may be cited as the City Library By-Law, 1888.

2. It shall be lawful for the Council to accept and take over, on behalf of the Corporation the library of the Mechanics' Literary Institute aforesaid, as a free, or partially free, circulating library, and to assume and pay any liabilities in connection therewith, not exceeding in the whole the sum of $450.

3. It shall be lawful for the Council to establish, and maintain a Public, Free or partially Free Library, of which the Library accepted and taken over shall be the nucleus; to obtain suitable premises therefor, and from time to time to accept or purchase such additions thereto, and such furniture as the Council may deem expedient; and to appoint a competent person to be City Librarian at such a salary as the Council shall fix, provided that the total expenditure under the authority of this section shall not exceed the sum of $1,200.00 in any one year.

4. The Council shall have power to make such rules and regulations from time to time for the management and use of the said Library, and for defining the duties of the City Librarian as they shall deem expedient.

5. This By-Law shall not be finally passed until the assent of the Electors of the City has been obtained, in conformity with the provisions in respect of By-Laws for creating debts.

Passed the Municipal Council the 18th day of July, A. D., 1888.

Received the assent of the Ratepayers the 31st day of July, A. D., 1888.

Reconsidered and finally passed the Council this first day of August, A. D., 1888.

[L.S.] JOHN GRANT,
Mayor.
JAMES D. ROBINSON, C. M. C.

A BY-LAW

To enable the Corporation of the City of Victoria to raise the sum of $20,000 for Water Works Purposes.

WHEREAS IT IS EXPEDIENT TO RAISE a sum of money for the purpose of purchasing Cast Iron Pipes for the distribution of water throughout the City and for laying the same and other water pipes within the City.

AND, WHEREAS, for the purposes aforesaid it is intended to raise by way of loan upon the credit of the said City the sum of $20,000.

AND, WHEREAS, it will require the sum of $1,256.00 to be raised annually by special rate for paying the debt intended to be hereby created and the interest thereon.

And, Whereas, the amount of the whole rateable property of the said Corporation according to the last revised Assessment Roll is $5,600,000.

And, Whereas, for paying the interest and creating an equal yearly sinking fund for paying the principal of the said debt intended to be hereby created according to the Municipality Act, 1881, an annual special rate of 1-44 of one per cent. on the dollar will be required.

And, Whereas, it is intended to reduce the general rate so that the said special rate shall not increase the total rate of taxation.

Be it therefore enacted by the Mayor and Council of the Corporation of the City of Victoria, as follows:—

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, or body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of $20,000, and to cause the same to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object hereinbefore recited.

2. It shall be lawful for the said Mayor to cause any number of debentures to be made for such sums of money as may be required either in currency or in sterling money not less than $500, or the sterling equivalent of that sum, and each and all such debentures shall be sealed with the common seal of the said Corporation and signed by the Mayor.

3. The said debentures shall be made payable in forty years from the date hereinafter mentioned for this by-law to take effect, at the office of the Treasurer of the said Corporation at the City Hall, Victoria, and shall have attached to them coupons for the payment of the interest.

4. The said debentures shall bear interest at the rate of five per cent. per annum from the date thereof, which interest shall be payable half yearly at the office of the said Treasurer.

5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest to become due thereon, an equal special rate of 1-29 of one per cent. on the dollar shall in addition to all other rates be raised, levied and collected in each year upon all rateable property within the said City of Victoria during the continuance of the said debentures or any of them.

6. It shall be lawful for the said Corporation from time to time to re-purchase any of the said debentures at such price as shall in each case be mutually agreed upon, and all debentures so re-purchased shall be forthwith cancelled and no re-issue of debentures or any debentures shall be made in consequence of such re-purchase.

7. This by-law shall, before the final passing thereof, receive the assent of the electors of the said Corporation in the manner provided by the Municipal Act, 1881, and shall take effect on the 25th day of August, 1888.

8. This by-law may be cited as the Johnson Street Sewer By-law, 1888.

Passed the Municipal Council the 18th day of July, A.D., 1888.

Received the assent of the Ratepayers the 31st day of July, A. D., 1888.

Reconsidered and finally passed the Council this first day of August, A. D., 1888.

DIED.

BECHTEL—On the 11th inst., of cholera infantum, Myra Daniel Newton, only son of the the late Myra Bechtel, aged 4½ months. The funeral will take place to-morrow, (Sunday) at 2:30 p. m., from the mother's residence, Herald street.

CITY AND PROVINCE.

—Ice Cream at Steits's.

—James Hagan, Saanich, had his arm broken in two places yesterday by being kicked by a colt.

—Please leave your orders for preserving fruits at FELL & Co., Fort street. *

—The Methodists of Richmond municipality are going to build a new parsonage.

—Photographic views along the line of the C. P. R. in B. C., and views of Alaska for sale at R. MAYNARD's, Douglas St. *

—Alderman Owen, Westminster, is about to commence the erection of a fine three story machine shop.

—Boys Oxfords at cost also Misses slippers at the People's Boot and Shoe Store. *

—The fine little steamer Mary Port, owned in Westminster, has been purchased by the Bon Accord Fishery Company to be used in connection with their cannery.

—The tonic and alterative properties of Ayer's Sarsaparilla are too well known to require the specious aid of any exaggerated or fictitious certificate. Witnesses of the marvelous cures effected by this preparation are to-day living in every city and hamlet of the land. *

—A company is being formed at Port Townsend for the purpose of erecting a large woolen mill. A large part of the stock has already been subscribed and the success of the enterprise is assured.

—The remedy which most successfully combats malarial disorders, is Ayer's Ague Cure. It is a purely vegetable compound, and contains neither quinine nor any other dangerous ingredient. Warranted to cure chills and fever. *

—Tomb and Headstones, Monuments, in Marble, imported and local Granite, Mantle pieces and Wash Stands in Marble, artistically executed, and at reasonable rates, at George Hodge's Marble Works, Douglas street, Victoria. Call and see specimens of work. *

—Ross & Ceperley, Real Estate and Insurance. C. P. R. Co.'s lots for sale; correspondence solicited. P. O. Block, Hastings street, Vancouver, B. C.

—For the largest and best assortment of FURNITURE, CARPETS, CROCKERY, GLASSWARE, LAMPS, &c., go to J. SEHL, Government Street, where you are sure to get suited in style, quality and lowest prices. *

Whatcom.

Buy Whatcom lots before the boom comes. *

Smoke "Athlete" straight cut Cigarettes.

The Winnipeg Call.

The Winnipeg Call has been enlarged and improved, and is now one of the finest-looking newspapers west of Toronto.

Our Boundary.

The *Mail's* Ottawa correspondent writes on the 3rd inst.: Nothing has yet been decided with respect to the joint survey with a view to defining the boundary between Alaska and British Columbia, although the United States authorities are prepared to go on with the work, the appropriation having been made. It is stated that disputes among gold miners are becoming so frequent that there is an absolute necessity that the boundary should be speedily defined. The Canadian Government have accumulated a vast amount of information upon the matter, which will be useful in settling the dispute. No appropriation for undertaking the work, which would be a costly one, exists; but the Governor-General's warrant might be obtained for the expenditure if it was wished to go on with the survey this year. It is, however, getting so late in the season, and the locality in question is so isolated, that it is not probable anything will be done this year. It is almost certain, however, that next spring the survey will be commenced.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

Clearance Sale.

A discount boot and shoe sale is now on at the People's Boot and Shoe Store, 47 Johnson street. Bargains for everybody. *

PERSONAL.

M King, of Comox, is in town.

E A Wadhams, of Ladner's, is in the city.

J Sehl and wife left for Nanaimo this morning.

Chas B Wood, Port Townsend, is at the Clarence.

Father Nicolaye leaves for Europe on Monday morning.

Ex-Mayor Fell did not leave for the north on the Louise.

Rev Rural Dean Machin, Port Arthur, is at the Oriental.

Mrs James Flett was a passenger to Nanaimo this morning.

Mr. B. Lawrence, the spectacle man of Montreal, is in the city.

J A M Aikens and Mrs Aikens, Winnipeg, are at the Driard.

Hon John Robson arrived from the Mainland on the Yosemite.

Ald D R Harris was a passenger on the Nanaimo train this morning.

J Fletcher, Kamloops, and S A Rogers, Vancouver, are at the Oriental.

Prof Thornton and wife, of Portland, Oregon, are at the Revere House.

Capt W R Clarke was a passenger for San Francisco on the steamer Mexico.

Forbes Angus, eldest son of R B Angus, of the C P R, arrived from Montreal last night.

Chas Wilson, and S A Rogers, Barkerville, arrived on the Yosemite last night.

Deputy Sheriff Langley and wife were passengers for Nanaimo on this morning's train.

Dr T H Matthews, California, and Miss Mathews, New Westminster, arrived last night.

T W Reilly, of the *Journal of Commerce*, St Paul, Minn, is in the city and will remain a few days.

Richard McMillan and Joseph Davies, Times comps., left this morning to take in the picnic at Nanaimo.

J H Todd, W F Bullen, M J Haney, J W McFarland, W L Cusack and Jas W Harvey were passengers from the Mainland.

Mr D E Brown, of the C P R, returned from San Francisco on the Aberdeen today. He will go over to Vancouver tomorrow.

Newton White, of Westminster, the genial young man who enjoys the distinction of being the first white man born in the Royal City, is paying Victoria a visit.

Amongst the passengers for Nanaimo on this morning's train were: Mrs H Wilson, Mrs S W Gray, E J Salmon, H Smith, M J Coulin, L G Burns, W Duck, G Fullerton, W Fisher, Dr Walkem, Benj Williams, R McMillan, W Ahern, E C Smith.

Mr Joseph Brown, of the firm of Miller & Brown, returned home last Wednesday evening after a seven weeks visit to friends in Montreal. On reaching that city he was grieved to hear of the death of his sister whom he had hoped to see before she was called away. The occurrence of course detracted a great deal from the pleasure of Mr Brown's visit. He met several Victorians in Montreal and noted with astonishment the progress the city has made since he was there some 13 years ago. He speaks in the highest terms of praise of the courtesy and urbanity of the conductors and officials along the C P R. The return trip from Montreal to this city was made in six days.

RAILWAY COMPANY FORMED

To Connect Victoria with the Mainland—Rail and Ferry.

Yesterday a company was formed by a number of the leading citizens of Victoria with the object of building a railway from this city to a point at or near Shoal Harbor at the north end of the Saanich Peninsula, and connecting this point with the mainland at or near the mouth of the Fraser river by a ferry, thence carrying a branch to Westminster city and extending the line from the mouth of the Fraser to connect with the American system of railways at or near Mud Bay. It is fully expected by the promoters that the trip from Victoria to the mouth of the Fraser by the proposed line will be made inside of one and a half hours, reaching New Westminster fifteen minutes later. At the Fraser river it is proposed to extend a mole to deep water where the trains will connect with the ferry. It is understood that both the Dominion House of Commons and the Local Legislature will be applied to for power to enable the company to carry out the work. In the meantime the promoters will endeavor to acquire all the necessary information and data for carrying the work to successful completion. It is fully intended to have the line in running order within two years from the time the company acquires power to go on. The distance by rail from Victoria to Shoal Harbor will be 18 miles, ferry 25 miles and 12 or 13 miles from the mole to Westminster. The following gentlemen were elected as a board of management for the purpose of obtaining from the Parliaments a charter of incorporation of the new railway company: Hon. A. DeCosmos, Chairman; J. Stuart Yates, Esq., Barrister-at-law Secretary; Hon. J. H. Turner, M. P. P., Minister of Finance; Alexander Wilson, Esq., and John Grant, M. P. P., Mayor.

Death of an Infant.

Mrs. Myra Bechtel has been again called upon to mourn the loss of another member of her household. Her only son, Myra Daniel Newton, died to-day of cholera infantum. The funeral will take place to-morrow from the residence, Herald street.

The Excursion.

The Princess Louise left at 8:45 last night with the excursion party for the north. The names have already appeared. Captain Irving entertained the company at dinner before the departure of the steamer. The party will be absent about two weeks.

For San Francisco.

The following passengers left on the steamer Mexico this afternoon for San Francisco: Mrs. Buchanan, Lewis Starr, Miss L. L. Gilmore, H. N. Rich, Mrs. A. C. Miner, W. J. Miner, W. R. Blake, T. H. Nathers, Miss Nathers, M. Miller, J. Barbour.

Try Athlete Cigarettes, equal to any 20c. imported package.

OUR TOWN MAJOR.

A General Talk With the Ladies on Various Topics.

"There is nobody in town," was what the Major heard from some fair lips last Monday afternoon on the cricket field at Beacon Hill. These "nobodies" being absent must of course mean somebody. Well, if nobody means somebody there was nobody to grace the cricket match with their presence. These nobodies go away from their beautiful Victoria during the most pleasant part of the year, and for what reason? Here in Victoria everything is narrow, and people seem to be narrow in all things but the narrow way to glory. Society circles are narrow, and so are the views of many, especially regarding the attractions of your beautiful country, where every prospect pleaseth and and naught but man is vile. Some may say so, but there are still some righteous in the city. Let us hope so anyway. The Major has had the pleasure of meeting many of both sex who are anxious to improve things all round, but community being small, and the adverse being in the majority, moral fear has taken hold and prevents their speaking out.

A learned divine, we are told, lately refused a large sum of money towards building a church because the money was the proceeds of the sale of beer! It may be a long time till conscience strikes some of our high cockolorums; if it does, The Major fancies Victoria divines wouldn't be so scruplous. Now, under such circumstances, how can a poor individual like The Major, without the second coat to his broad back, endeavor to cause a reformation.

The Major had a dream the other night. In dreamland he fancied he had become a great reformer. Everything was giving way before the great avalanch he had started rolling, and when on the summit of what he fancied to be the pinnicle of his triumph, the angel of darkness suddenly appeared. "Good morning, old chap," says the fiend, "you fancy your doing things up fine, don't you, eh? You're the Sam Slick of Columbia and the great reformer of my western Babylon, are you? Well, we will see what we can do with you, my honey. Now you just take things cool. Once on a time I had a great regard for you, in fact looked on your sweet self as safe. I just want to tell you that my grip on a great many things, social and moral, in that place you call the Western Paradise, is still firm and deep-rooted. Many will, I claim, for my own of the present rising generation before you or your clique are able to gain your end. I've got a well secured mortgage on your beautful city, as you say, and I'm the boy to claim my pound of flesh. I let you go on for a while with your blarney about the ladies, and your moralizing paradox, but when you came to interfering with my affairs and the *Colonist's*, I'm blowed I won't stand it any longer; so my fine fellow you'll have to cut your stick. You've also interfered with my bench and my staff. What do you mean you ungrateful old scoundrel, eh? You leave off now and at once, or I'll take the only coat you have off your back and send you adrift. Then we'll see what your "spirits" and fair ladies will do for you. Why, if I only start to run you they'd boycott you out of house and home, make no blooming error about it, my boy. You've even interfered with the "Deil's own" way down Langley street; so mind what you're at, old boy. We'll be even with you." With that he gave the major such a vicious shove that he awoke. Dreams to some are foreboding, who knows.

The Major hopes that his fair friends have been reading the account of "Victoria's industries" as published daily in THE TIMES for some time past, and that the ladies will insist on the home manufactures of our city being patronized. Wear none but the Heathorn and Belmont boots, furnish your houses with the goods of our furniture makers, play only on a Goodwin piano, insist on your men kind smoking nothing but the native made cigars, have no beer in the house but the Victoria, and as for candies and sweetmeats you must per force use the home-made for you can't get any better. Ladies have assisted native industries ere now by practicing the above few simple rules. The foundation of some of the great industries of the Union years before the Revolution are attributed to a determination to use nothing where practicable but the home-made article.

In going to church to-morrow insist on your brothers accompanying you. Take no excuse. If there was a dog fight or any other diverting amusement on, they would have no excuse of "feeling tired," and such like, you know. Some go whose imposing presence they fancy would be greatly improved by the company of a dog. The hat and umbrella were in themselves an army irresistible, unconquerable and a great strain on the nerves of the congregation, but the dog. The beadle swears next time he will put the dog in the hat and kick it, umbrella and all down the hill. Only just try him. He asked the Major's assistance last Sunday; He will have it next time.

You see, fair ladies, how the Major's time is taken up by Mr. "Morals" and the doctors. So you must excuse haste, hoping to have a chat with you all next week. "May your shadows never grow less" is the wish of THE TOWN MAJOR.

The Old Reliable.

Attention is directed to the advertisement of the Victoria Transfer Stables, the largest of the kind on the North Pacific coast. Hacks are supplied at every hour of the night and all kinds of teaming is done. Good rigs are hired out at moderate rates and polite attention is always given to customers by the company's employees.

Baseball Match.

Yesterday's game between the Maple Leaf and Mayflower nines was won by the first named club by a score of 6 to 2 runs made by the Mayflowers. Pierrie and Haggart were the battery for the Maple Leaf club. W. Deasy, of the James Bay nine, was pitcher for the defeated team. Tom Burns acted as umpire.

OUR Q. C'S.

TO THE EDITOR OF THE TIMES:

SIR,—Talking of the degradation of the appellation "Q. C," in this province, some of your readers may recollect that Mr. Justice McCreight, our most highly educated judge, whilst still practicing at the bar, before untoward circumstances drove him to the bench, and after receiving his patent as Q. C., refrained from wearing the gown, or using the letters, indicative of his legal rank; and so pretty plainly expressed his opinion of the value of the title in this province. It has been suggested that, here, the most apt extension of the mystic letters Q. C. would be "Queer Customer."

LUX GRATIUM LEX.

Mr. Goldwin Smith arrived last night and is stopping at the Driard. He will remain in Victoria about a week. A number of our business men called upon him to-day, and we understand expressed a desire to hear his views on trade questions. It is likely a meeting will be arranged for next week.

MISS ACKERMAN.

Conclusion of Praise Service—Large Meeting Last Night.

Pandora street Methodist Church was crowded to the doors on Friday night in response to Miss Ackerman's request that a temperance mass meeting be held on the last evening, and a praise service. Postmaster N. Shakespeare occupied the chair. The meeting opened with hymn No. 101 by the W. C. Temperance Union choir. After prayer by Rev. J. E. Starr, the chairman, Mr Shakespeare, addressed the meeting. Prof. Briggs, of New York, made an eloquent address on the subject of intemperance. Rev. Mr. Starr was the next speaker and his words of advice were listened to with marked attention. The reverend gentleman is an able advocate of the cause of temperance and handled the subject in a manner which received the wrapt attention of the large audience. Rev. Dr. Reid, a gentleman who has given the greater portion of his life to the cause of religion and temperance, next addressed the meeting. Miss Ackerman made the closing speech. The lady lecturer was very brief in her remarks which were directed to the use and abuse of the intoxicating cup. Miss Ackerman is an active member of the W. C. T. U. and her words of encouragement and advice were listened to with great interest. Since her stay in this city a large number of ladies joined the union. It is the intention of the W. C. T. U. to invite ladies from Eastern Canada and the United States to deliver lectures in this city. If they are as successful in future as they have been in the past this city will be favored with the words of encouragement and advice of many of the ablest speakers on the subject of moral reform. Miss Ackerman will leave in a few days for the Eastern States.

The Mackerel Catch.

Captain Pouliot of the fisheries protection schooner C. J. Brydges, which with four other Government schooners is cruising between Georgetown and the east and north coast of Prince Edward island and Miramichi, in a communication says that the mackerel catch is not half of that of last year. The average catch of American seiners is twenty to sixty barrels.

The Canadian Vikings.

An American paper gives currency to the report that in consequence of the C. P. R. steamers the line running from San Francisco is about to be abandoned. It maintains that the only way to prevent this and place the line on an equal footing with "the foreigner" is to subsidize it. The report is possibly intended for political effect.

Passengers Arriving.

Per Str. Alaskan from the Sound yesterday—H Newman, Mrs Popham, W A Johnson, J T McHenry, T R Rawson, wife and family, J McNaught, O Hasler, J M Hiller and wife, A A Henry, M R Wills and wife, H L Wesley, G M Reed, J W Riley, D McDonald, W Emerson, J W Walker, J Liddington, D W Higgins, T W Baker, Mrs Chambers, J Brooks, J Lushell, W O Riley, O B Wood, A H Blythe, D B Miller and wife, H McWilliams, H Landes, Col J D Howe, G Church, Judge McConnell, W Cane, J B Wehl, M Neelary, R Small, E Redden, F A Allan and wife, W H Dean and wife, C Butler, J Berthwaite, R P Prether, H H King, H H Gadd, W Bemis, C Richardson, A Perlie, T J Yorke, J W Bryce, P Morton, S Holbrook, Mrs Patrick, J H Ordway and wife, D B Miller jr, S Manning and wife, Judge Spencer, Mrs McNaught, Miss Howe, C Naher, Dr T S Smith and wife, Mrs Walker and daughter, Mrs Adams, H L Tibbals, Miss J Dean, Miss D Dean, J Benson, A F Prowesky, W Bent, G Whitehead, W R Smith, A Morley, A McKenzie, L Edwards, E Maston, T Riley, M Dyer, J Gibb.
